I. THE BASIS OF THE DIVINE CODE (Initial Consciousness)

1. Understanding the Divine Code

The Divine Code is a universal pattern of consciousness embedded in the human body, soul, and spirit since creation. This code is not merely a metaphysical symbol, but a cosmic intelligent system that regulates:

Evolution of consciousness

Kundalini energy activation

Body–soul–universe synchronization

In ancient traditions, the Divine Code is known by various names: Logos, the First Word, Divine Light, Tao, or Word. All refer to the first source of consciousness.

2. Initial Awareness: Spiritual Zero Point

Early Awareness is the condition before the ego is formed, before social identity, name, and self-concept emerge.

Characteristics of Early Awareness:

Quiet, clear, and fully aware

Not bound by time and space

Not divided by the duality of good–bad

Realizing “I Am” without definition

This awareness is the foundation for activating the Divine Code. Without returning to the Initial Awareness, the awakening of energy will be crippled.

3. The Relationship of the Divine Code to the Human Body

Divine Code is programmed within:

Spiritual DNA (not just biological DNA)

System Chakra

Nadis and dantian pathways

Electromagnetic fields of the heart and brain

The human body is truly a living scripture. Its bones, blood, nerves, and breath hold divine algorithms that can be “read” through consciousness.

4. Why Consciousness Must Be Awakened First

Many practitioners immediately pursue energy, power, or metaphysical abilities. This is dangerous.

Without Initial Awareness:

Kundalini can be wild

Ego grows

Spiritual illusions increase

The body and psyche can be disturbed

Consciousness is the driver, energy is just the vehicle.

5. Early Signs of Awareness Starting to Become Active

Some common signs:

Feeling fully present in the moment

Thoughts slow down without being forced

A sense of peace arises for no reason

Intuition is getting sharper

Empathy increases

Dependence on recognition decreases

This is not ecstasy, but clarity.

6. Basic Initial Awareness Training (Divine Code Foundation)

Exercise 1: Awareness of the Breath Source

1. Sit or stand relaxed

2. Be aware of your breath coming in and out

3. Don't regulate, don't judge

4. Feel “I am aware of the breath”

Do this for 5–10 minutes, 2–3 times a day.

Exercise 2: Whole Body Awareness

1. Close your eyes

2. Feel the body from head to toe

3. Don't focus on one point

4. Present as “encompassing awareness”

This opens the path of Divine Code naturally.

7. The Golden Principle of the Divine Code

Consciousness is more important than energy

Clarity is higher than strength

Simplicity is deeper than complicated rituals

Humility is the key to unlocking

8. Consciousness Affirmation (Gentle Affirmation)

“I am fully present here and now.
Pure consciousness guides my energy safely and harmoniously.”

Say it without excessive emotion, just with awareness.

II. ACTIVATION OF DIVINE CODE IN THE BODY

1. The Body as a Container of Divine Codes

The human body is not just flesh and bones, but**living cosmic instrument**. Divine Code can only be active**through the body**, not just with the mind.

Important principles:

- Awareness = key
- Body = gate
- Energy = result

True activation always**down to the body**, not floating in the mind or imagination.

2. Three Layers of Divine Code Activation

Activation occurs in stages through three main layers:

a. Physical Layer

- Nervous system
- Spine
- Hormones & endocrine glands
- Breath and posture

Without physical relaxation, Divine Code**can't flow steadily**.

b. Energy Layer

- Chakras (bottom to crown)
- Pulse / meridian
- Lower, middle, upper dantian
- Bioelectric energy field

Here it is**Kundalini**start to play an active role.

c. Layer of Consciousness

- Pure witness
- Consciousness without identity
- Non-dual presence

This layer ensures energy**not controlled by ego**.

3. Main Path of Activation: Divine Axis

Divine Code is active through**Divine Axis**:

- From **Earth (roots)**
- Go up through**spine**
- Penetrate**crown**
- Connected to**Source**

This axis is known as:

- *Sushumna River*
- *Middle Lane*
- *Pillar of Light*
- *Tree of Life internal*

4. The Role of Kundalini in Activating the Divine Code

Kundalini is not a goal, but rather**activation machine**.

When consciousness is stable:

- Kundalini rises slowly
- Natural open chakras
- Divine Code “turns on” gradually
- The body becomes**divine antenna**

Without awareness, Kundalini becomes**fire without a guide**.

5. General Stages of Activation in the Body

Activation usually goes through the following phases:

1. Warm or vibrating sensation in the spine
2. Breathing becomes deep and smooth
3. Old emotions emerge and are then released

4. Pressure or light in the head
5. Feeling united and silent

Everyone is different,**no need to compare**.

6. Divine Code Activation Core Exercise (Safe & Natural)

Exercise 1: Divine Axis Alignment

1. Sit up straight but relaxed
2. Realize your feet touching the ground
3. Realize the top of your head is open to the sky.
4. Feel a line of light in the center of the body
5. Silence as awareness

Do it for 10–15 minutes.

Exercise 2: Gradual Dantian Activation

1. Take a gentle breath.
2. Feel the energy descending into:
    - Upper Dantian (head)
    - Middle dantian (heart)
    - Lower dantian (lower abdomen)
3. Don't force it, just be aware

This exercise is very consistent with**Golden Flower Level 33**.

7. Common Activation Errors

Avoid:

- Force energy up
- Chasing the thrill
- Comparing experiences
- Too many techniques
- Neglecting the physical body

Divine Code is active through**simplicity**.

8. Healthy Activation Sign

- The body feels light and stable
- Emotions are more balanced
- Clear mind
- Soft heart
- Everyday life is getting better

If life gets worse, it means activation**not aligned**.

9. Divine Code Activation Affirmation

> “With pure awareness, the Divine Code is activated throughout my body safely, naturally, and harmoniously.”

Say it.**once or three times**, not excessive.

10. Golden Principles of Activation

- Consciousness leads energy
- The body is respected
- Trusted process
- Ego is left behind

III. DIVINE CODE & CHAKRA SYSTEM

1. Chakras as Gates of Divine Code

Chakras are not just energy centers, but**Divine Code activation gate**in the human body.
Each chakra stores**certain codes of consciousness**which when active, will open:

- new level of consciousness
- specific spiritual functions
- character and behavior transformation

The Divine Code did not come down all at once, but**open layered through chakras**.

2. The Seven Main Chakras & Their Consciousness Codes

1. Mooladhara (Root) – The Code of Existence

Location:base of the spine
Divine Code: *I Am Here. I Am Safe.*

Function:

- stability of life
- existential courage
- connection with the earth

If it is not stable, the activation of the upper chakra will be fragile.

2. Svadhisthana (Sacral) – Code of Life

Location:lower abdomen
Divine Code: *I Flow.*

Function:

- creativity
- healthy emotions

- life force and sacred pleasure

Blocks here often stem from emotional trauma and guilt.

3. Manipura (Solar Plexus) – Kode Daya

Location: epigastrium

Divine Code: *I can do it.*

Function:

- conscious will
- spiritual discipline
- force of action

A clean Manipura makes the practitioner**calm but firm**.

4. Anahata (Heart) – Divine Love Code

Location:middle of the chest

Divine Code: *I Love.*

Function:

- unconditional love
- healing
- world–sky bridge

This is **balance point**lower and upper chakras.

5. Vishuddha (Throat) – Code of Truth

Location: throat

Divine Code: *I Declare the Truth.*

Function:

- honesty
- inner voice
- divine communication

When active, words become**healing power**.

6. Ajna (Third Eye) – Code of Vision

Location: genius

Divine Code: *I Know.*

Function:

- intuition
- all spiritual
- inner clarity

Active Ajna does not mean seeing supernatural things, but**see the truth**.

7. Sahasrara (Crown) – Code of Unification

Location:top of head

Divine Code: *I am One with the Source.*

Function:

- cosmic consciousness
- wisdom
- ego release

This is not the end, but rather**higher dimensional gateway**.

3. Chakras as the Ladder of Divine Code Activation

Ideal activation moves:
root → crown → back to heart → down to life

Without going back down, spirituality becomes**floating and not grounded**.

4. Divine Codes Beyond the Seven Chakras

In advanced practice (aligned with Golden Flower Level 33), the Divine Code is also active on:

- Earth Chakra (under the feet)
- High Heart Chakra

- Nape Chakra
- Upper Crown Chakra
- Chakra Dimensions 8–14+

This explains why consciousness**does not stop at the seven classical chakras**.

5. Chakra Synchronization & Divine Codes

Chakras do not need to be opened one by one by force.
What is needed is:

- complete awareness
- soft breath
- pure intentions

When one chakra is aligned, the other chakras also align.

6. Divine Code Alignment Exercise in All Chakras

Practice: Divine Rainbow Consciousness

1. Sit still
2. Aware from the base to the crown
3. Let each chakra be present without being changed.
4. Feel one awareness encompassing all

10–15 minutes, safe for both beginners and advanced levels.

7. Common Symptoms When the Divine Code is Active in the Chakras

- Subtle vibrations
- Warm or cold feeling
- Old emotions arise and then subside
- Tears for no reason
- Inner silence

This is **cleaning**, not a disturbance.

8. Golden Principles of Chakra Activation

- Don't chase chakra opening
- Let consciousness work
- Respect the body's rhythm
- Love is stronger than technique

9. Chakra Alignment Affirmations

> “All my chakras are aligned with the Divine Code,
> working in harmony for my life and consciousness.”

Say it.**calm and aware**, not with ego driven.

10. Summary Part III

- Chakra = gate of Divine Code
- Consciousness leads energy
- True activation changes lives, not just inner experiences.

IV. DIVINE CODE IN DNA & CELLS

1. DNA: The Biological Bible

DNA is not just a chemical chain, but**cosmic intelligence storage media**.
Science sees DNA as the genetic code, while spiritual traditions see it as**book of life**.

Divine Code at work**through DNA**, not against it.

2. Differences between Biological DNA & Spiritual DNA

Biological DNA	Spiritual DNA

Set up physical	Regulating awareness
Genetically inherited	Activated consciously
Limited form	Unlimited potential
Work automatically	Responding to awareness

Spiritual DNA is active when**consciousness is present stably in the body**.

3. Cells as Units of Consciousness

Each cell:

- have memory
- responding to intentions
- communicating through energy fields

The body is**trillions of conscious beings united**.

When you are conscious, all cells are conscious.

4. Information Field Around DNA

Modern research acknowledges the existence of:

- electromagnetic field of the cell
- cinema photos
- non-chemical communication

It explains how:

- prayer affects the body
- intention to accelerate healing
- meditation changes gene expression

Divine Code works through**this information field**.

5. Activation of Divine Codes at the Cellular Level

Activation occurs when:

- calm mind
- clear emotions
- relaxed body
- presence of consciousness

The cell opens its information receptors.

This is the meaning of “DNA awakening”.

6. The relationship between Kundalini and DNA

Kundalini:

- activate biological electricity
- coordinate the nervous system
- speed up the reading of the Divine Code

But Kundalini**does not change genes**, but rather**how genes are expressed**.

7. The Role of Breath & Heart

The heart is:

- largest field transmitter
- consciousness–cell link

Breath is:

- information bridge
- cell rhythm carrier

Consciousness + breath + heart =**spiritual DNA activation key**.

8. Divine Code Activation Exercise in Cells (Safe)

Exercise: Whole Cell Awareness

1. Sit back and relax
2. Be aware of the heart
3. Feel the body as a single cell unit
4. Present as a consciousness that embraces the body

Do this for 10–15 minutes, without loud affirmations.

9. Signs of Healthy Activation at the Cellular Level

- Energy stable
- Gradual healing
- Sleep improved
- Emotions are calmer
- Increased vitality

Not an extreme sensation, but rather**improving quality of life**.

10. The Dangers of DNA Activation Misunderstanding

Avoid:

- claims of new genes growing
- promise of instant supernatural powers
- forced visualization
- oversuggestion

Divine Code at work**smooth, steady, and gradual**.

11. The Golden Principle of the Divine Code in DNA

- Awareness precedes change
- The body is a friend
- Patience is an accelerator
- Love accelerates integration

12. DNA Gentle Affirmations

> “With pure consciousness, every cell of my body is aligned with the Divine Code of life.”

Say it.**slowly, consciously, and not often**.

13. Summary Part IV

- DNA holds the potential for consciousness
- Cells respond to intention and presence
- True activation improves the quality of life

V. DIVINE CODE ACTIVATION STAGES (33 LEVELS)

The true goal is**living consciously, wholely, and usefully**.

VI. DIVINE CODE, KARMA & REINCARNATION

1. Karma is not punishment, but rather an algorithm of consciousness.

Karma is often misunderstood as punishment.
In the perspective of the Divine Code, karma is**soul learning algorithm**.

- Every thought → stores information
- Every emotion → plants resonance
- Every action → leaves a trace of consciousness

Divine Code**record, balance, and return**this information with precision.

2. Where Karma is Stored

Karma is not stored outside oneself, but in:

- mobile memory

- chakra energy pattern
- inner tendencies
- subtle field of consciousness

This is why reactions often occur**without any logical reason**in today's life.

3. Reincarnation as a Process of Perfection

Reincarnation is not a repeated punishment, but rather:

- integration opportunities
- continuation of the soul curriculum
- Divine Code alignment process

The soul returns not because it failed, but because**not finished yet**.

4. Spiritual DNA & Past Life Connection

Biological DNA carries ancestral heritage.
Spiritual DNA carries:

- mental tendencies
- natural talent
- recurring challenges
- inner mission

Activation of the Divine Code makes a person**no longer enslaved by old patterns**.

5. How the Divine Code Unravels Karma

Divine Code does not erase karma instantly, but:

- bring awareness to patterns
- soften automatic reactions
- make conscious choices
- stop the repetition

Consciousness is**breaker of the chains of karma**.

6. Three Types of Karma in the Perspective of the Divine Code

1. **Active Karma**– in progress
2. **Karma Dormant**– saved, not yet active
3. **Karma Unraveled**– finished because it was realized

Mindfulness practice accelerates the transition to the third type.

7. The Role of Kundalini in Karmic Transmutation

Kundalini:

- elevate subconscious memory
- accelerate learning
- burning old patterns with the light of awareness

Without awareness, it hurts.
With awareness, it is liberating.

8. Does Enlightenment End Karma?

Enlightenment**does not erase worldly consequences**, but:

- end the attachment
- stop identification
- end mental suffering

Karma may still be running, but**no longer binds the soul**.

9. Do Higher Souls Still Reincarnate?

The soul that has become one with the Divine Code:

- can choose again
- can guide from another dimension
- can stop the cycle

Reincarnation into**conscious choice**, not coercion.

10. Karma Release Training through Awareness

Practice: Witness of Karma

1. Sit still
2. Remember the repetitive patterns of life
3. Don't judge or blame
4. Present as a witness
5. Feel the natural release

Do it routinely, not emotionally.

11. Common Mistakes in Understanding Karma

Avoid:

- blame past lives
- feel special
- claiming to know past lives
- make karma a reason to surrender

Divine Code leads to**conscious responsibility**, not fatalism.

12. Karmic Liberation Affirmation

> “With Divine awareness, I understand, harmonize, and resolve my karma with wisdom.”

13. Summary Part VI

- Karma is a learning system
- Reincarnation is the continuation of perfection
- Awareness frees the soul
- Divine Code is the key to integration

VII. INTEGRATION OF THE DIVINE CODE IN DAILY LIFE

(Practical Chapter & Grounding of Awareness)

1. Integration Objectives

Integration means:

> **Divine consciousness remains present while working, speaking, walking, and making decisions.**

If after meditation life does not change, then activation**not yet integrated**.

2. Main Principles of Integration

Hold on to these four principles:

1. **Awareness first, reaction later**
2. **Energy follows attention**
3. **Everyday life is the ultimate exercise.**
4. **Simplicity is stronger than complicated rituals**

3. Integration of Divine Code into Daily Activities

a. When you wake up

- Be aware of the body before the mind
- Feel the first breath
- Present 1 minute without purpose

This is setting**daily frequency**.

b. When eating

- Eat without rushing
- Feel the texture & taste
- Stop the distraction

This activates**mobile awareness**.

c. While Working

- Do one thing with full presence
- Reduce multitasking
- Feel the body when thinking

Increased productivity**stress-free**.

d. When Speaking

- Listen fully
- Speak from the heart, not the ego
- Silence before answering

Words become**life energy**.

e. While Walking

- Feel the footstep
- Be aware of the space around you
- Breathe naturally

This is **moving meditation**.

4. Integration of Divine Codes in Emotions

Emotions are not the enemy.

Integration steps:

1. Be aware of emotions arising
2. Feel it in the body
3. Don't be told a story.
4. Let it finish itself

Conscious emotions**leaving no new karma**.

5. Integration in Mind

- Thoughts come and go
- You are not the content
- Consciousness is the space

Thoughts become**tool**, not a ruler.

6. Integration in Relationships

The relationship is**mirror of the Divine Code**.

Training:

- See yourself in others.
- Reduce the need to win
- Prioritize gentle honesty

The relationship becomes**fastest place of karma purification**.

7. Integration in Money & Material

Materiality is not the opposite of spirituality.

Divine Code works when:

- money is sought consciously
- used without fear
- shared without showing off

Inner and outer balance is achieved.

8. Integration in Life's Challenges

When problems arise:

- Don't ask "why"
- Ask “what is conscious?”

Every challenge is**next activation door**.

9. Simple Daily Practice Schedule (15–30 Minutes)

Morning (5–10 minutes)

Breath & body awareness

Afternoon (1 minute repeatedly)

A short silence before the activity

Evening (10–15 minutes)

Witness the day without judging

Consistency > duration.

10. Signs of Successful Divine Code Integration

- Life feels light
- Reduced reaction
- Clearer decisions
- Relationships improve
- Not thirsty for validation

11. Common Mistakes in Integration

Avoid:

- withdraw from the world
- feel more holy
- neglect the body
- forcing awareness

Divine Code**friendly to life**, not anti-life.

12. Daily Integration Affirmations

> “Divine Consciousness is present in my every step, word, and action.”

Say it.**once in the morning**, not repeatedly.

13. Chapter VII

- True spirituality is seen in life
- Mindfulness is not exclusive to meditation
- Divine Code finds its home in everyday life

VIII. GOD'S CODE & TRISULAVEDHA

(Culminating Chapter of the Teachings – The Unification of Consciousness, Energy, and Life)

1. TRISULAVEDHA: Three Spears of Consciousness

TRISULAVEDHA is not just a method, but**architecture of supreme consciousness**which unites all dimensions of humanity.

TRIDENTsymbolizes:

1. **Consciousness (Jnana)**
2. **Life Energy (Shakti)**
3. **Manifestation of Life (Conscious Karma)**

VEDHA means *penetrate*—not to destroy, but**breaking through illusion, ego, and separation**.

2. Position of Divine Code in TRISULAVEDHA

The Divine Code is**TRISULAVEDHA driving core**.

- Without Divine Code → dry consciousness
- Without TRISULAVEDHA → Divine Code is not grounded

Both of them complement each other.

3. Three Pillars of TRISULAVEDHA & Divine Code Activation

Pillar I – Pure Awareness

> *“I was here before I was anyone.”*

- Rooted in Early Awareness
- Monitoring thoughts & emotions
- Becoming a great witness

Without this pillar, all practices become ego-spiritual.

Pillar II – Divine Energy (Kundalini Golden Flower 33)

“Energy follows consciousness.”

- Kundalini moves safely
- Chakra alignment
- Active spiritual DNA
- The body becomes a divine antenna

Energy is not the goal, but**servant of consciousness**.

Pillar III – Conscious Living

“Consciousness must live in the world.”

- Natural ethics
- Service without motive
- Relationship as a mirror
- The world as a training ground

Without these pillars, spirituality does not mature.

4. Point of Unification: Divine Heart

The three pillars meet at:

- **Anahata / Heart**
- center of balance between heaven and earth
- space of unconditional love

This is it**living altar of TRISULAVEDHA**.

5. TRISULAVEDHA as the Middle Way

TRISULAVEDHA is not:

- world refugee
- pursuit of power
- extreme asceticism

But:

- down-to-earth spirituality
- active awareness
- soft power

6. Activation of TRISULAVEDHA in Life

When TRISULAVEDHA is active:

- clear mind
- energy stable
- coordinated action
- karma unravels
- life becomes a prayer

This is **the pinnacle of Divine Code integration**.

7. Signs of Ripe Trisulavedha

- natural humility
- not patronizing
- calming presence
- the simple Life
- beneficial for the surrounding area

If ego increases, TRISULAVEDHA is not complete.

8. Fatal Errors in High Practice

Avoid:

- claim to be the most correct
- idolize oneself/teacher
- cut off world relations

- show off experience

TRISULAVEDHA works**in silence**.

9. The Great Affirmation of TRISULAVEDHA

> **“Divine Consciousness, Divine Energy, and Divine Life are united and living through me.”**

Say it.**quiet moment**, not to show off.

10. Conclusion: Return to Simplicity

After all the knowledge:

- return to the breath
- return to the body
- return to the heart
- come back to life

That's where**Divine Code dwells**.

Summary of Chapter VIII (The Peak of the Teachings)

- Divine Code is the core
- TRISULAVEDHA is the path

- Life is an altar
- Awareness is the key

SACRED EPILOGUE

Return to the Source, Live as Light

In the end, all roads lead back to one point:**pure consciousness**.
It is not knowledge that saves man, but**consciousness that lives in the body**.

The Divine Code is not out there.
It is not hidden in distant skies, ancient books, or secret symbols.
It is silent.**in conscious breath, in open heart, in honest steps**.

When awareness is present, energy follows.
When energy is in harmony, life dances.
This is a silent law that is unwritten, but has been working perfectly since the beginning of creation.

TRISULAVEDHA is not the final destination.
It is**how to walk**.
Not to be higher than others, but to**become more whole as a human being**.

If after reading this book you:

- be gentler on yourself
- more honest in heart
- more present in life
- more useful for others

then the Divine Code has been activated.

Don't look for big signs.
Don't chase extraordinary experiences.
The great one works in**simplicity**.

The earth needs conscious humans,
not a human being who escapes life.

Let your hands work,
let your heart be open,
let awareness guide every step.

If one day all the teachings are forgotten,
remember this one thing:

Being fully present is the highest prayer.

From that silence
The Divine Code lives on,
TRISULAVEDHA continues to work,
and the light continues to descend upon the world.

Finished—but also just begun.
